

EDUCATION

The University of Hong Kong | 2023–present
Bachelor of Engineering (Major: Computer Science)

- GPA: 3.58
- CGPA: 3.42

PROJECT
EXPERIENCE

Building a mini-game with C++ – “Ultimate Tic-Tac-Toe” | October – December 2024

- In collaboration with team members as a team leader to build a mini-game based on the tic-tac-toe game and add new features to make the game more creative and fun to play.
- Combined multiple techniques to complete the game such as using file I/O for storing user data and using vector library for the implementation of the play board.
- Implement new logic and rules to enhance the mechanism of ordinary tic-tac-toe game in order to support the Ultimate Tic-Tac-Toe game.
- Received great feedback and full marks from our grader.

Building a text-based game with Python – “Tiny dungeon” | October – November 2023

- Leading the team to build this game with the concept of encryption key and 2D RPG game, with plots and pictures to construct immersive experience for players.
- In collaboration with team members to design the traps and enemies for the difficulties according to different levels.
- Setting the mechanism of the player movements, hp counts, particular animations, etc.
- Received great feedbacks about the concept of the game, the game mechanism, level designs from different students in the course.

Hong Kong Techathon 2025 Semi-Pitcher – CropGuardian | October 2024

- In collaboration with team members to build an Ai assistant with build-in chatbot to help local farmers with weather prediction and crop rotation suggestion
- Connecting with agricultural experts and gain deep understanding of modern agricultural

GenAI hackathon for SDGs 2024 Finalist – AgriGuard | September 2024

- One of the members of AgriGuard, working on an AI-driven agricultural website to improve efficiency and yield of farmers from less developed countries
- Successfully broke into the final (Top 10 Team) among over 150 teams

SKILLS

Technical Skills	Language Skills
• Python • C++ • Html/CSS • C#	• Cantonese (Native Level) • Mandarin Chinese (Bilingual Level) • English (B2)

CERTIFICATES

Foundational C# with Microsoft 2025 freeCodeCamp	Scientific Computing with Python 2025 freeCodeCamp
Python for Data Science 2025 IBM	

EXTRA
CURRICULARS

- Member of Basketball team in secondary school
